

Ronald M. Auen Learning Center FIRST FLIGHT EXPERIENCE

Who can participate?

Local youth 12 to 17 years of age with a serious interest in becoming a pilot or to be in a program on a flight track.

When

Five individuals will be selected in the active program months (October through July). There is a high demand to participate in this program and space is limited.

The Experience

- Each aspiring pilot will receive an introduction to the Palm Springs Air Museum and receive a *First Flight* shirt and flight logbook.
- *First Flight* participants will then experience a hands-on experience in a flight simulator.
- Next, participants will be introduced to the pilot and the Cessna 128 Skylane, *Inspiration One*.
- Then they will board, taxi and take-off for an approximately 30 minute flight next to the pilot.
- After landing, participants will receive a certificate commemorating their flight.

▶ Must have parent or guardian permission forms and limit loss form completed. Participation in the program allows the Palm Springs Air Museum permission to use likeness in educational, communication and marketing materials.
